

We are happy to announce that in 2023, the University of Bologna will host the [50th Meeting of the Italian Crystallographic Association \(L-AIC\)](#) from the 5th to the 8th of September. The event will be jointly organized by the Department of Chemistry "Giacomo Ciamician" and the Department of Pharmacy and Biotechnology (FaBiT) of the University of Bologna.

L-AIC will be a unique event, full of high-profile scientific content and, for all, a pleasant opportunity to meet friends, colleagues, and collaborators.

On behalf of the AIC community, we look forward to welcoming you to Bologna.

For queries, please, contact the organizing committee:
