AGE THAT CRATER!

observe, study and discover
lunar craters

AGE THAT CRATER!

Apr. 25 & 27 2023, PLACE, Casablanca, Morocco

Discover what the sky has to offer
through our new playtime program

25 and 27 Apr. 2023,
from 14.00 to 16.00

In this activity the students will learn about the existence of craters on the Moon and on other planetary bodies and how they occur. They can also learn how to approximately age these craters, comparing them to other craters.
