

Call for applications for the

ENABLE Training School

Digital technologies for medication adherence support - enabling successful development, validation and use in healthcare systems

June 25-27, 2023 Bologna, Italy

EuroDURG pre-conference event

Training School SYLLABUS:

DAY 1

INTRODUCTION TO THE ENABLE REPOSITORY AND RESEARCH METHODOLOGY

During this day, the development and final descriptors of the ENABLE medication adherence technologies (MATEchs) repository will be introduced, and some examples of technologies presented. In the afternoon, research methods to develop, implement and evaluate MATEchs in clinical practice will be presented and discussed.

DAY 2

INTRODUCTION TO BEHAVIORAL SCIENCE AND HEALTH IT RESEARCH STANDARDS AND PATIENT PERSPECTIVES

During this day, behavioral science tools as well as Health IT research and standards for effective MATEchs will be presented and discussed. In addition, together with patients, we will explore the patients' perspectives and learn more about (e)Health literacy and how to consider it in the development of inclusive technologies.

DAY 3

INTRODUCTION TO ECONOMIC AND REGULATORY ASPECTS, WORKSHOP WITH EXAMPLES

During this day, the economic evaluation, regulatory aspects and reimbursement of MATEchs will be introduced. In the afternoon, a workshop will be organized together with participants to the EuroDURG congress where ENABLE Training School participants will be invited to present real MATEch examples and the data generated by MATEchs with support from the trainers.

TAKE-HOME MESSAGES

Clearer ideas about the methodologies and standards for the development, validation and use of medication adherence technologies (MATEchs) in healthcare systems.

The training school will have lectures, work-in-group activities, debates, discussions with patients...

Connect with other learners, trainers and patients and debate ideas, discuss course material, and get help mastering concepts.

Earn official recognition for your learning, and share your success with friends, colleagues, and employers.
