SUSTAINABILITY OF DRUG USE: EQUITY AND INNOVATION

June 27th-30th, 2023

Alma Mater Studiorum - Università di Bologna
Belmeloro District, Via Beniamino Andreatta 8, Bologna

www.eurodurg2023.com

EuroDurg 2023: Scientific meeting with educational courses for researchers, policy makers from academia, healthcare professionals, PhD students and all who are interested in safe and rational drug use.

Keynote sessions:

- equitable and sustainable use of medicines,
- unmet clinical needs and target population for innovative medicines,
- patient perspectives on drug utilisation,
- Covid-19 and drug utilization - learnings from the pandemic.

Workshops/Symposiums/Thematic sessions:

- eHealth, digitalization and DUR,
- introduction of new medicines,
- cross-national comparisons,
- adherence and digital technologies,
- multimorbidity, polypharmacy and deprescribing.

Basic and/or advanced level educational sessions for several topics, such as introduction to DUR, study designs and methods, statistics, QIs, visualisation of DU data, monitoring rational drug use.

Oral presentation of submitted abstracts and interactive poster walks.

Abstract submission: October 2022 – January 2023

As part of the EuroDURG pre-conference courses, the ENABLE Adherence project (www.enableadherence.eu) is organizing a hybrid 3-day Training School on *Digital technologies for medication adherence*
